About Me

I'm a passionate software developer with expertise in backend application development using **Node.js** and **Android app development**.

I have been developing **scalable, high-performance** and **well-tested** applications over the years.

My **dedication** to staying up-to-date with the latest trends and technologies in the software development landscape empowers me to deliver innovative and cutting-edge solutions. I am always **excited** to take on new challenges, **learn** new technologies, and **explore** novel approaches to **problem-solving**.

Professional Experience
